Sarvesh Gandhi

Product Manager · Cards, Payments & Growth

Mumbai, India · +91 82370 71998 · gsarvesh@ce.iitr.ac.in · linkedin.com/in/sarvesh-gandhi98

Product manager with 5+ years across fintech, D2C growth and ed-tech. Ships customer-facing features on a flagship banking app, owns a 470+ control regulatory framework, and doubled a D2C brand's revenue in five months.

Professional Experience

Product Manager – Cards & Payments — *ICICI Bank, Mumbai* JUN 2025 – PRESENT

- Shipped a customer-facing transaction-limit feature on the flagship app for real-time spend control, reducing fraud exposure.
- Leading a risk-based, omnichannel Re-KYC rollout that minimises customer friction, aligning 8+ teams across cards.
- Own a 470+ control framework across 6+ regulatory domains: prioritise by risk, translate requirements into specs, drive engineering delivery.
- Prevented multi-crore exposure twice: resolved an identity-resolution defect across 20k+ IDs, and cleared a 2+ year backlog on cards linked to closed accounts via a novel "nature-of-outstanding" segmentation.
- Automated multi-lakh-row regulatory reporting (AIR/SFT, PIDF), cutting an 11-person, 6-week effort by ~70%; recognised in writing by senior leadership.

Growth Lead, Founder's Office (Juno Mom & Loopie) — *BundleOjoy, Gurugram* DEC 2024 – MAY 2025

- Sole growth lead for two D2C brands. Doubled Juno Mom's revenue in ~5 months: redesigned pricing (+~35% margins) and built 20+ medical-partner and affiliate channels.
- Built Loopie's retail distribution: landed a partnership with All Things Baby and drove activations across Delhi NCR, Mumbai, Bengaluru and Chennai.
- Drove trial and organic growth via 6 conversion-focused sampling SKUs and a 100+ mom community-led word-of-mouth pilot.
- Built SKU-level P&L and live performance dashboards that steered pricing and spend across both brands.

Lead, Product & Growth Strategy — *Diginique Techlabs, Delhi* AUG 2022 – AUG 2024

- Launched a hyper-personalised, AI-native learning ecosystem that tripled engagement; integrated OpenAI APIs into a real-time adaptive assessment platform, saving 100+ manual hours weekly.
- Drove 80% YoY revenue growth by scaling the programme portfolio across new segments and launching the company's first annuity-based recurring-revenue model.
- Built an operating framework that lifted delivery efficiency and resource allocation ~20%; scaled offline events to 500+ participants, expanding Tier-2/3 reach 35%.

Business Development – Graduate Trainee — *Udaan, Bengaluru* AUG 2020 – NOV 2020

- Cut Return-to-Origin (RTO) from 15% to 7% across the Lifestyle category by delisting 22+ low-margin, high-RTO brands.
- Developed a dynamic model for real-time revenue-impact assessment of RTO-reduction measures.

Key Projects & Consulting

Appetizer App, IIT Roorkee
Campus dining app for 8,000+ students with biometric entry across 10 messes; automated a ledger routing ₹27L+ in rebates and cut food waste 30% via 4-hour forecasting. Won the national "Eat Right Campus" award.

Young Ace · Freelance Consultant, Ranchi (Oct – Nov 2024)
Led the Jharkhand electoral campaign across field operations, social media, data insights and candidate selection.
